

Customer Information

Recycling of Electrical Waste Products

- From 1st July 2007, the UK's Waste Electrical and Electronic Equipment (WEEE) Regulations began.
- The WEEE directive gives you the public the chance to recycle your electronic goods.
- Much of the UK's electronic waste ends up in landfill sites, where toxins put communities and the environment at risk.
- To remind you to recycle, all new electrical products are marked with a crossed out wheeled bin symbol.
- Recycling your electronic waste has never been easier. Visit **www.recycle-more.co.uk** for advice on recycling and to find your nearest electrical recycling facilities.
